

Title of Sustainable Development Goal:

1 - End poverty in all its forms everywhere.

No Poverty

Short Description of SDG:

One in ten people in the world lives on less than 2 dollars per day. This poverty inhibits access to nourishing food, decent housing or basic resources for life like water, electricity or clothes. Moreover, it also implies a lack of essential resources like education and healthcare. It includes discrimination by society, because the poverty also prevents participation under equal conditions in social and public life. It marginalizes those who suffer and it denies the possibility of them claiming their rights.
